College Cafeteria

With the addition of the co-operative cooperation and support of student body activities, let the whole That very necessary part of the college regime, the school cafeteria.

Part of the work in preparing meals to be served by students enrolled in the class in large quantities, which is purchased from one or several hundred dollars per cent of the student body. Very few of the students who attend the school at the same time have a meal in any part of the college.

The #5 meal ticket which has been made available to the public. It is not the only way to obtain food under the conditions of the cafeteria, but it is the most practical way. This outstanding offer was made in accordance with the belief that the cafeteria is not a source of profit, but a means to an end.

The cafeteria is run by the students as a non-profit co-operative enterprise, food is served at cost. In the fact of having hundreds of students, the cafeteria is expected to make a profit. Therefore, the cafeteria is not a means to an end, but a way to raise money for the students.

Freshmen Problems

We may as well be frank and open about it. All of us who are freshmen don’t know what to do about it, and some of us are frankly afraid. The problem is to decide how to manage some of the difficulties that arise.

Freshmen at the University of Michigan are known as “freshmen.” They are a group of students who have just started at the University. The freshmen are the least experienced group of students at the University, and they are often the most confused. They are also the group of students who are most likely to drop out of school.

The editorial policy: Anything the boss does not want printed.

We choose that policy because we believe students who are freshmen should know what to do. We want them to be able to speak their minds on the management of the college. We want to be able to speak our minds on the management of the college.

Very queer life—Freshmen! We freshmen just come from high school. It’s a new life for us, and the first years of our college life are the most important years of our lives. We don’t know what to take, what to do, what to eat, and we don’t know what to expect.

We go to work at the beginning of the term, and the college will take us on a journey of discovery. We will be able to explore the world of college life, and we will be able to find our way.
